EXTERNAL DIMENSIONS W422 x D476 x H337mm		CAVITY DIMENSIONS W330 x D310 x H175mm
1800W MICROWAVE	CAPACITY 18L	WEIGHT 17.5kg

COMMERCIAL WARRANTY: 2 Year On-site

Key Features

Inverter Technology

Their distribution is designed specifically to adapt to the interior of the device and allow the temperature in the food to increase consistently. Therefore, even delicate foods can be heated for longer periods under higher microwave power, saving time

Splatter Shield Detection

Automatically stops the unit when the ceiling plate is not in place, preventing damage to the cavity (comes with two shields)

Even Heating

You can cook, reheat or defrost your food without creating cold spots or overcooking edges

Energy Saving

Saves up to 5.5% on energy consumption (Results based on instant readings of power consumption from Panasonic internal tests. {UK, February 2025})

Feather Light..... Almost

Lighter and more portable unit (40% less heavy compared to Panasonic NE-1853)

Compact Design and Stackable

Thanks to its compact design, the unit is stackable - saving you a valuable space in your kitchen.

Technical Specifications

Power Source	230-240V, 50Hz Single Phase	
Plug Type	15A plug	
Required Power	11.6A 2650W	
Material	Face of Door/Base	Stainless Steel
	Cabinet	Stainless Steel
	Cavity	Stainless Steel
	Base plate	Sealed-in ceramic
Door Design	Left Side Hinged	
Program	Power Level	10 Levels
	Memory	30 Programs
	Stage Cooking	5 stages
	Memory lock	Yes
Multiple Quantity Keys	X2 and X3 qty button	
No. of Magnetrons	2	
Display	LCD	
Oven Lamp	LED	
Stackable	Yes	

Optional Accessory

Microsave Liner - NE-CPS2A-

Minimises cleaning time and extends the microwave's lifespan by providing total protection for the cavity, roof, sides, back and base
