PEOPLE

● Passion and Drive

At Hussmann, our people drive our success. Their passion has made the P Series an award-winning product, recognised for excellence by esteemed HVAC&R industry bodies. With high performance and precision manufacturing, the P Series exceeds market expectations and reflects our commitment to sustainable, energy-efficient solutions.

● Aesthetics

Designed as a family range, The P Series comprises a suite of matching cases with clean lines to drive consumer engagement with any store format.

● Installation

A key feature of the P Series is the ease of installation and seamless line ups.

● Quality

Hussmann prides itself on quality. Our engineering design philosophy and methodology is based on years of feedback from customers, contractors, consumers and team members.

● Safety & Ergonomics

Hussmann's precision engineering to ISO standards ensures products are purpose-built, accessible, and ergonomically designed for user comfort.

PLANET

● Energy Savings

Our P Series is one of the most efficient case in terms of energy that Hussmann Oceania has designed.

● Sustainability

We have designed P Series with sustainability in mind, as our most sustainable range yet.

● EEI

We will meet all Australian and New Zealand EEI requirements with maximum rebates.

● Life Cycle

Designed with longevity in mind, the P Series cases is made from premium quality standards therefore lasting longer and cheaper to repair and refurbish, extending product life.

PERFORMANCE

● Structure

P Series is built with extensive computer analysis such as CFD & structural analysis to ensure the asset delivers over 15 years of utilisation in the field.

● Future Proof

P Series offers the option of retrofitting doors with ease and low cost and allows easy upgrades on facelift and maintenance, again ensuring lowest total cost of ownership.

● Innovation

Optional CaseConnect® IoT platform reduces electricity usage further, maintenance costs and operational cost to increase Total Cost of ownership

Engineered for Performance and Premium Merchandising

At Hussmann, we bring together a rich heritage of over a century of experience, combining quality design, engineering, and precise manufacturing to deliver products that stand the test of time and offer a lower cost of ownership. Our commitment to sustainability and serving our communities has earned us the trust of long-standing customers, making us their go-to partner. As a proud member of the Panasonic family, we are grounded by deep values and dedicated to providing you with premium products that meet the highest standards of quality.

Our new P Series cases have been engineered to deliver exceptional energy savings of up to 20-40%, surpassing market standards.

Sustainability Program

Hussmann's sustainability focus drives its case design to prioritise energy efficiency, reduced environmental impact, and improved product lifespan, resulting in innovative solutions for its customers.

The Hussmann ESG framework is based on four pillars:

- Engaged Partners
- Protected Planet
- Innovative Products & Systems
- Thriving People

CQC ISO9001 : 2015
Quality Certified
00123Q310117R1M/3200

CQC ISO14001 : 2015
Environmentally Certified
00122E33632RIM/3200

CQC ISO45001 : 2018
Occupational Health & Safety Certified
00122S30267ROM/3200

Our manufacturing plant in Suzhou utilise Solar panels

ESG STRATEGY

Our Framework

Engaged Partners

Our Promise
We contribute to our industry and partners by sharing information and resources that promote more sustainable decisions.

Our Focus areas
- ESG communication
- Enhancing industry's sustainability
- Community engagement
- Engagement with First Nations people

Protected Planet

Our Promise
We keep the highest operational standards, while reducing our negative impacts and addressing our risks.

Our Focus Areas
- Emissions from operations
- Packaging and waste management
- Sustainable and ethical procurement and human rights and modern slavery

Innovative Products & Systems

Our Promise
We remain agile and flexible by quickly adapting to new technologies and embracing challenges.

Our Focus Areas
- Innovation, technology & partnerships
- Energy efficiency of our products
- Recyclability and circularity
- Digital strategy

Thriving People

Our Promise
We foster a diverse and safe work culture that supports and celebrates our people.

Our Focus Areas
- Employee engagement and retention
- Employee health, safety, and well-being

Our Commitment: People, Planet, Performance – Reducing Your Energy Costs and Carbon Footprint

- ✓ Shelf depth variety to optimise merchandising
- ✓ Precise food storage temperature to maintain product compliance
- ✓ Low Total Energy Consumption (TEC)
- ✓ Longer merchandising shelf life
- ✓ Simple to install and maintain

A seamless alignment that reflects premium design, elevating store aesthetics and enhancing customer engagement.

Designed as a family range, comprising a suite of matching cases with clean lines to drive consumer engagement with any store format.

Superior LED lighting for improved and optimal product presentation.

Our most energy efficient offering up to 20-40%. Internal curvature provides optimum airflow, reducing energy consumption.

Maximum merchandising space for efficient use of space and product layouts.

Our zero-defrost feature eliminates downtime and maintains optimal cooling performance without the need for manual defrosting.

Quality built for a premium look, premium feel and premium performance.

Night blinds for after-hours efficiency reducing temperature loss and to keep refrigeration running optimally when the store is closed.

Fully frameless / semi frameless (low-medium temperature) door design offers a maximum tailored product visibility.

Coolroom

Hussmann Coolroom Door and Insert Solutions offer cutting-edge options with both frameless and semi-frameless designs to meet the specific needs of businesses looking for advanced refrigeration solutions.

Frameless Doors
The frameless doors provide a sleek and modern look while maximising visibility and accessibility within the coolroom.

Semi-frameless Doors
The semi-frameless options offer a balance of aesthetics and functionality, providing durability and insulation while enhancing the overall design appeal of the coolroom.

Hussmann's innovative approach to door and insert solutions ensures that businesses can maintain optimal storage conditions while enhancing the efficiency and aesthetics of their refrigeration systems.

Full turnkey solution offering including measure, quote, supply, installation and commissioning.

Optional accessories include shelving, lighting and roller gravity feed

Seamless lineup with merchandisers

PSM16 Semi-Vertical
Available heights: 1500mm, 1600mm

Customisation
OVERVIEW

No two stores are made the same. A tailored approach to refrigeration.

Additional Shelving

Optional additional shelving, providing ample storage space for a wide range of products. Allows maximisation of storage capacity, easy access and optimal product display.

Gravity Rollers

Shelf rollers and dividers offers enhanced convenience and organization. Allows easy separation and categorisation of different products, ensuring efficient stock management and effortless access for staff and customers.

Gravity Mats & Dividers

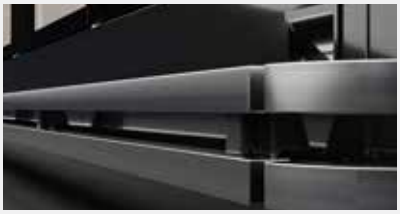
Gravity mats and dividers improve efficiency and product flow. The mat has a wavy surface that allows products to slide down easily at an angle of 5° to 7°. Tilt your shelves slightly when using this system to achieve self-feeding when customers take products from the front. Install dividers on the mat by aligning them on the grid and pushing them in.

Premium Lighting

Ability to equip with premium lighting options, enhancing product visibility and creating an attractive display. Ensures optimal illumination of products but also adds a touch of elegance and sophistication to the overall aesthetic. Select from a wide range of LED options from value to premium brands.

Paint Colour

Various external powder coated colours are available for customisation to match the branding or interior design of the establishment. Allows businesses to create a cohesive and visually appealing look, seamlessly integrating the refrigeration unit into the overall ambiance of the space.



Bumper

Bumper options are available, providing an extra layer of protection against accidental impacts. This customization feature helps to safeguard the unit from potential damage, ensuring its longevity and durability in busy commercial environments. Options include Rubber, Double Square Stainless, Double Rectangle Stainless, Double Round Stainless.

CUSTOMISATION

Semi Frameless LT Temp
Door design – Schott Slimline

- Slimline freezer door system offers maximum product visibility through large display areas and impressive energy efficiency with a highly attractive and customisable design.
- Reflection and condensation free and without bulky frames and fittings. It is built for an enhanced customer experience.
- The innovative frame design of the Skyline slimline freezer door reduces visual interruption by up to 50%.
- Freezer doors consume up to 40% less energy and reduces your carbon footprint

Note: Other door options available on request.

Fully Frameless Medium Temp
Door design – Schott Skyline

- Supremely stylish all-glass look to suit the aesthetics of modern retail outlets.
- Extended glass doors optimize the view and add a spacious effect.
- Various options are available to adapt to your requirements.
- Energy-free doors available with Termofrost® Skyline Eco.
- High transparency and visibility deliver positive effects on sales in retail environment.

Digital Technology Solutions

Revolutionising retail refrigeration management through cutting-edge technology.

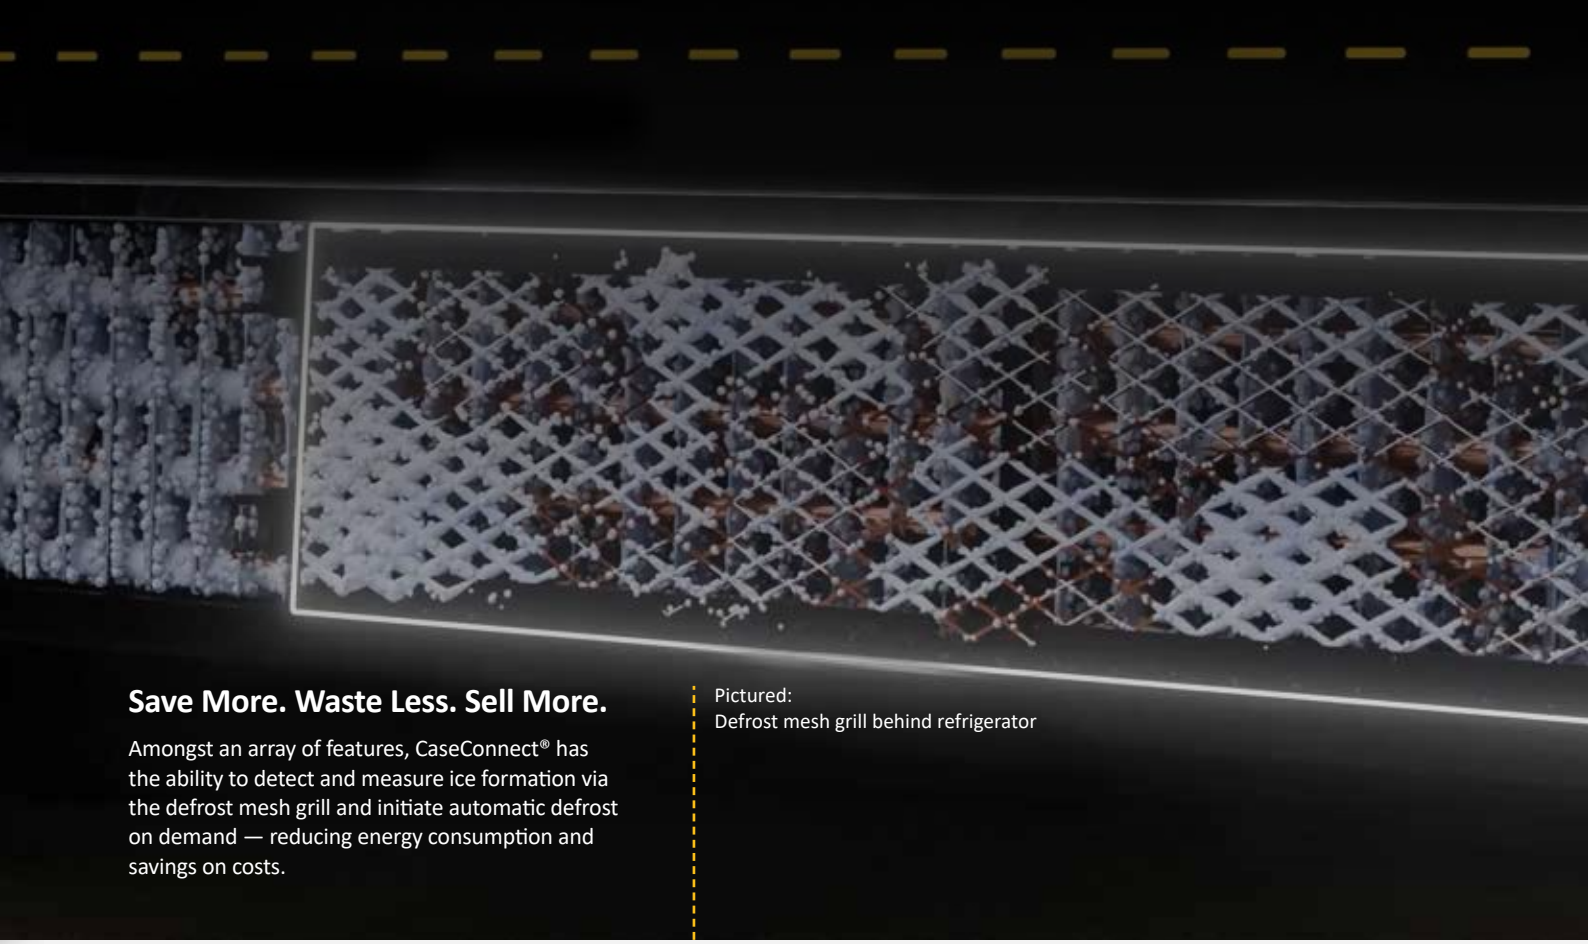
CaseConnect®

DIGITAL PRODUCTS

Enhance your energy efficiency with On Demand Defrost, Automated Drain Blockage Detection, and a suite of tailored features designed for precise monitoring and control of your refrigeration systems.

Introducing Hussmann CaseConnect®, an advanced solution leveraging IoT (Internet of Things) and SaaS cloud technology to provide real-time monitoring and control of your refrigeration equipment. This ensures peak performance and significant energy savings.

With capabilities such as remote temperature monitoring, status updates, and predictive analytics, CaseConnect® empowers retailers to prevent costly breakdowns, enhance operational efficiency, reduce energy costs, and ensure food safety compliance providing a seamless and reliable refrigeration management solution.



Save More. Waste Less. Sell More.

Amongst an array of features, CaseConnect® has the ability to detect and measure ice formation via the defrost mesh grill and initiate automatic defrost on demand — reducing energy consumption and savings on costs.

Pictured:
Defrost mesh grill behind refrigerator

Full range of CaseConnect® features:

Defrost On Demand IoT
- Maximise Equipment Uptime
- Avoid Unsafe Product Temp
- Automatic Ice Detection
- Increase case efficiency by minimising unnecessary defrost cycles

Fan IoT
- Early Detection of Abnormal Operation
- Avoid unsafe product temperatures and food wastage

Product Temperature IoT
- Monitor Case Temp in Real Time
- Prevent Product Wastage

Drain IoT
- Automatic Drain Blockage Detection
- Avoids poor Hygiene & Customer Impact

Door IoT
- Door Open Alarm
- Planogram Success Measure

People Counter IoT
- Insights of High Flow Areas
- Planogram Success Measure

Air Return Blockage IoT
- Return Air Block Alarm
- Optimize Performance

Night Blind IoT
- NB Open Alarm
- Fan Motor Energy Reductions
