

HUSSmann®

V SERIES

BUILT TO WORK SMART. DESIGNED TO COST LESS.

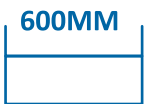

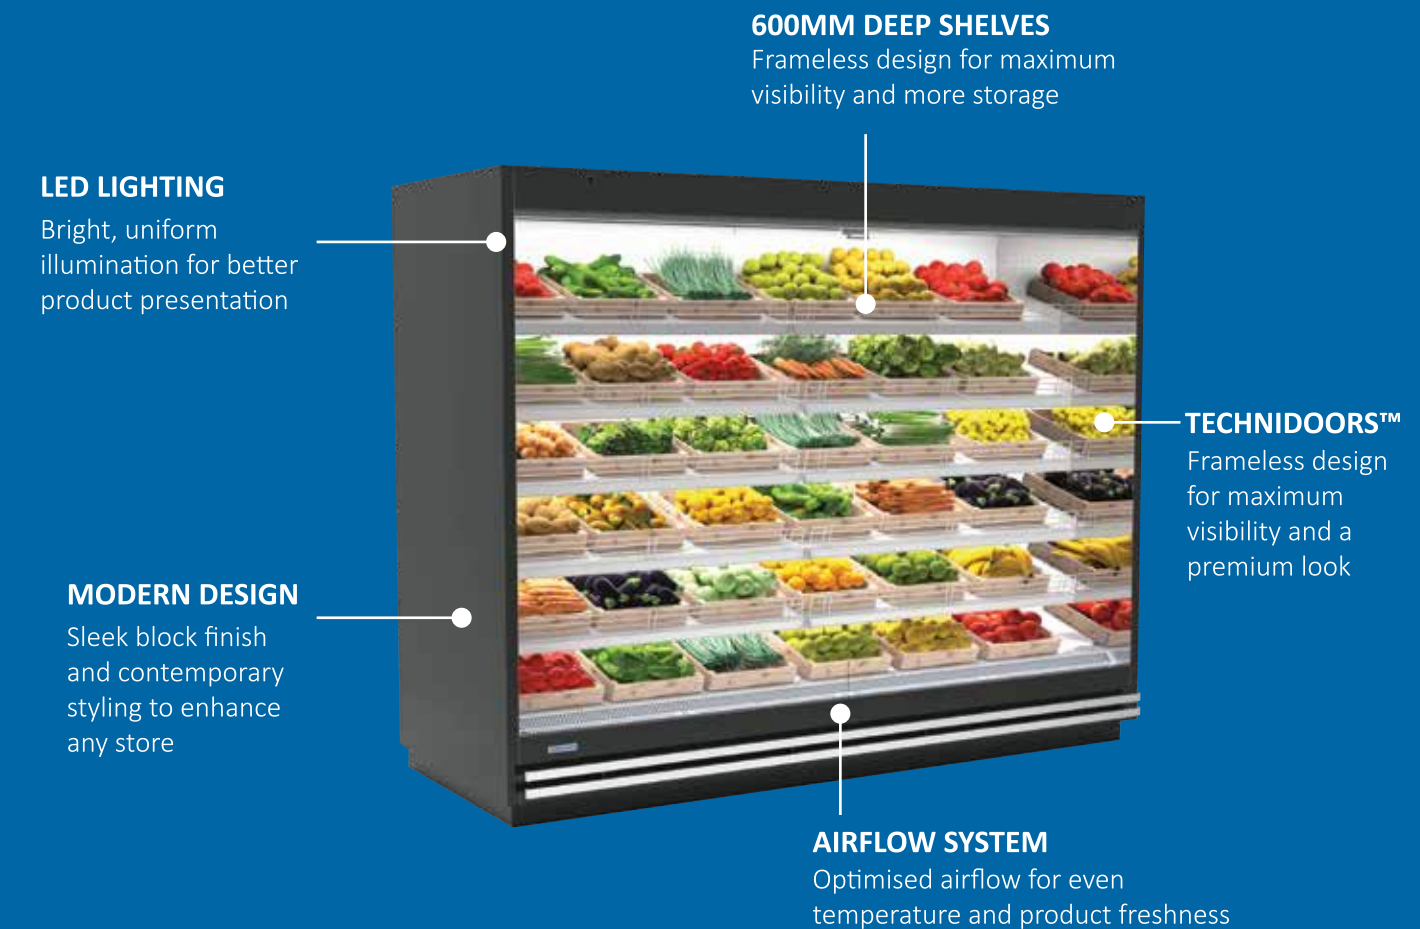

Innovating Climate Solution for a Better Future

Why V Series?

Designed around the needs of today's retailers

The V series delivers the features that matter most to retailers- more merchandising space, lower operating costs and premium presentation- in a flexible range built for modern retail environments.

600MM DEEP SHELVES

More products capacity, more facings and less replenishment. 600mm shelf is standard on VMN, option available for VMM.

ENERGY EFFICIENT

EC fans and optimised air flow reduce energy use and running costs.

SUPERIOR MERCHANDISING

Clear sightliness, LED lighting and a modern design that showcases your products and drive sales.

TECHNIDOORS™

Frameless glass doors for maximum visibility, a premium look and modern store aesthetics.

VALUE FEATURES. VALUE PRICE

Superior features and rugged construction deliver long-term value without the premium price.

More Shelf Space. More Product. More Sales

The 600mm deep shelf gives you up to 20% more merchandising capacity compared to standard multideck.

Standard 600mm for VMN open multideck. Option available for VMM door multideck

UP TO 20% MORE CAPACITY

Increased shelf area allows you to display more products and increase sales potential

MORE FACINGS

Wider shelf depth means more facings and better product variety

LESS REPLENISHMENT

More stock on shelf reduces replenishment frequency and saves time

BETTER VISIBILITY

Products are easier to see and shop, improving the shopper experience

See More. Sell More

V Series combines Premium Technidoors™ with energy efficient components to deliver outstanding visibility and lower operative costs.

LED Lighting

Bright uniform illumination for superior product presentation

Technidoors™ Frameless Design

Frameless glass doors for maximum visibility and a premium look

Energy Efficient EC Fans

High efficiency fans reduce energy use and operating costs

ENGINEERED FOR PERFORMANCE

EC Fan Motors

High efficiency EC Fans deliver powerful airflow with lower energy consumption

Optimised Airflow

Designed air distribution ensures even temperature and better product preservation

LED Lighting

Long-life LED lighting uses less energy and improve visibility across all shelves

LOWER COST OF OWNERSHIP

- ✓ Lower energy consumption
- ✓ Reduced operating costs
- ✓ Reliable performance you can count on
- ✓ Built for long-term value

Backed by Hussmann. Support You Can Rely On

When you choose V Series, you get more than a high-performance refrigeration solution - you get the strength of Hussmann behind you.

National Support

Extensive channel partner support network across Australia for fast, reliable support

Parts Availability

Genuine parts readily available when you need them

Industry Expertise

Decades of experience in retail refrigeration

A Part of Panasonic Group

A Global strength you can trust

Responsive Service

Fast response time to keep your business running

Genuine Parts

Quality parts designed for reliability and long equipment life

Expert Knowledge

Skilled technicians with the knowledge to support your investment

Trusted Retail Partner

Committed to your success **before, during and after the sales**

**BUILT TO PERFORM.
BUILT TO LAST.**

V Series is backed by Hussmann's commitment to quality, reliability and support - giving you confidence for the long term.

Glass door Freezer

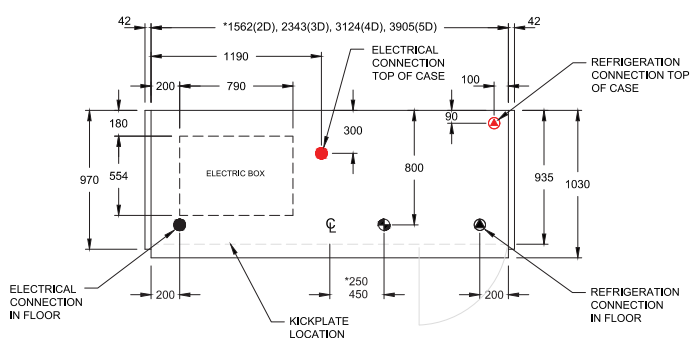

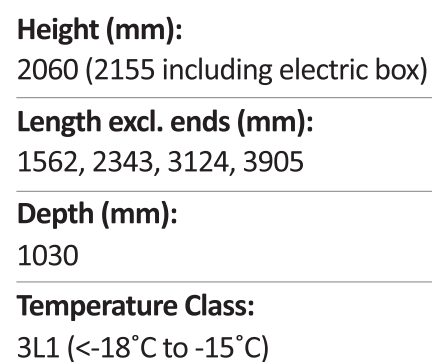

VGL20F3

The VGL glass door freezer delivers dependable low-temperature performance with optimised defrost management to minimise ice build-up and maintain consistent cooling efficiency.

Enhanced airflow and anti-fog design ensure clear, uninterrupted product visibility at all times, helping merchandise stay attractive and easy to access.

Designed to integrate seamlessly across the V Series lineup, it supports a consistent retail appearance while contributing to lower long-term operating costs.

LED canopy and shelf lighting as well as top mount refrigerant piping comes standard.
